IN THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Claim 1 (Currently amended). An injectable [[A]] chemotherapeutic pharmaceutical composition medicament consisting of a sodium or potassium salt of a halogenated xanthene in aqueous solution as the active component, wherein said pharmaceutical composition chemotherapeutic medicament is for chemotherapeutic treatment of diseases of human and animal tissue.

Claim 2 (Currently amended). The <u>pharmaceutical composition</u> medicament of Claim 1 wherein said halogenated xanthene is present in a concentration of greater than about 0.001% to less than about 20%.

Claim 3 (Currently amended). The <u>pharmaceutical composition</u> medicament of Claim 1 wherein said halogenated xanthene is Rose Bengal.

Claim 4 (Currently amended). The <u>pharmaceutical composition medicament</u> of Claim 1 wherein said halogenated xanthene is a compound selected from the group consisting of 4',5'-Dichlorofluorescein; 2',7'-Dichlorofluorescein; 4,5,6,7-Tetrachlorofluorescein; 2',4',5',7'-Tetrachlorofluorescein; Dibromofluorescein; Solvent Red 72; Diiodofluorescein; Ethyl Eosin; Erythrosin B; Phloxine B; Rose Bengal; 4,5,6,7-Tetrabromoerythrosin; Mono-, Di-, or Tribromoerythrosin; Mono-, Di-, or Tribromoerythrosin; Mono-, Di-, or Trifluoroerythrosin; 2',7'-Dichloro-4,5,6,7-Tetrafluorofluorescein; 2',4,5,6,7,7'-Hexafluorofluorescein; and 4,5,6,7-Tetrafluorofluorescein.

Claims 5-8 (Canceled).

Claim 9 (Currently amended). The <u>pharmaceutical composition</u> medicament of Claim 1 wherein said <u>solution</u> halogenated xanthene is in a delivery vehicle that includes an adjuvant selected from the group consisting of builders, stabilizers, emulsifiers, dispersants, preservatives, buffers <u>and</u> [[,]] electrolytes , tissue penetrating agents and tissue softening agents.

Claim 10 (Currently amended). The <u>pharmaceutical composition medicament</u> of Claim 1 wherein said <u>pharmaceutical composition medicament</u> is for the treatment of indications selected from the group consisting of diseases of the skin and related organs, diseases of the mouth and digestive tract and related organs, diseases of the urinary and reproductive tracts and related organs, diseases of the respiratory tract and related organs, diseases of the circulatory system and related organs, diseases of the head and neck, diseases of the endocrine and lymphoreticular systems and related organs, diseases of connective tissues, diseases of tissue surfaces exposed during surgery, and diseases caused by microbial, viral, fungal, and parasitic infection.

Claim11 (Currently amended). The <u>pharmaceutical composition medicament</u> of Claim 1 wherein said medicament is administered using <u>an intracorporeal</u> [[a]] route of administration selected from the group consisting of intravenous injection, intraperitoneal injection, intramuscular injection, intracranial injection, intratumoral injection, intraepithelial injection, transcutaneous delivery, per oesophageal administration, intraabdominal administration, intraapendicular administration, intrabuccal administration, intracapsular administration, intracardial administration, intracardial administration, intracardial administration, intracardial administration, intracardial administration, intracardial administration, intracolic administration, intracutaneous administration, intracystic administration, intradermal administration, intraflat administration, intraflar administration, intraflat administration, intraflar administration, intraflation, intraflation, intralamellar administration, intralesional administration, intraligamentous administration, intralingual administration, intramammary administration, intramedullary administration, intrameningeal administration, intramyocardial administration, intranasal administration, intraocular administration,

intraoperative administration, intraoral administration, intraosseous administration, intraovarian administration, intrapancreatic administration, intraparietal administration, intrapelvic administration, intrapericardial administration, intraperineal administration, intraperitoneal administration, intraplacental administration, intrapleural administration, intrapontine administration, intraprostatic administration, intrapulmonary administration, intrarachidian administration, intrarectal administration, intrascental administration, intrascental administration, intrascental administration, intrascental administration, intrascental administration, intrasplenic administration, intrasternal administration, intrastromal administration, intratonsillar administration, intratracheal administration, intratubal administration, intratympanic administration, intraureteral administration, intraureteral administration, intraverteral ad

Claims 12-18 (Canceled).

Claim 19 (Currently amended). A chemotherapeutic pharmaceutical composition for intracorporeal administration consisting of a <u>sodium or potassium salt of a</u> halogenated xanthene <u>formulated in a delivery vehicle consisting of an aqueous solution, a tablet, a capsule, a suppository or a syrup as the active component.</u>

Claim 20 (Original). The pharmaceutical composition of Claim 19 wherein said halogenated xanthene is present in a concentration of greater than about 0.001% to less than about 20%.

Claim 21 (Previously presented). The pharmaceutical composition of Claim 19 wherein said halogenated xanthene is Rose Bengal.

Claim 22 (Previously presented). The pharmaceutical composition of Claim 19 wherein said halogenated xanthene is a compound selected from the group consisting of 4',5'-Dichlorofluorescein; 2',7'-Dichlorofluorescein; 4,5,6,7-Tetrachlorofluorescein; 2',4',5',7'-Tetrachlorofluorescein; Dibromofluorescein; Solvent Red 72; Diiodofluorescein; Ethyl Eosin; Erythrosin B; Phloxine B; Rose Bengal; 4,5,6,7-Tetrabromoerythrosin; Mono-, Di-, or Tribromoerythrosin; Mono-, Di-, or Trichloroerythrosin; Mono-, Di-, or Trifluoroerythrosin; 2',7'-Dichloro-4,5,6,7-Tetrafluorofluorescein; 2',4,5,6,7,7'-Hexafluorofluorescein; and 4,5,6,7-Tetrafluorofluorescein.

Claims 23-26 (Canceled).

Claim 27 (Currently amended). The pharmaceutical composition of Claim 19 wherein said halogenated xanthene is in a delivery vehicle that includes an adjuvant selected from the group consisting of builders, stabilizers, emulsifiers, dispersants, preservatives, buffers and [[,]] electrolytes, tissue penetrating agents and tissue softening agents.

Claims 28-33 (Canceled).
